## Spring and Summer Work Projects

Over the years folks have worked hard to help grow LP and there are often inquiries about what else needs to be done. Any and all help is welcome. The following projects are priorities for the coming seasons...

- **Fencing Work:** Cleaning out brush and logs, repairing old fences. Project begins in June and will run all summer.
- **Painting:** As weather permits throughout June
- **Grounds Maintenance:** Mowing paths, tending the garden

If you're interested in helping with any of these projects, please make contact and we'll coordinate days and times.
